

TRACK #: 5

TITLE: A Better You

TOPIC: Sustainable Consumerism (Preamble Paragraphs 3 and 4; Principles 7, 7a, and 7b)

Letra en Español

Vas a comprar
En tus marcas, listos, go!
No pararás
Si te pido me dices, “No!”

Tienes de más
Pero aun quieres tener más
¿Cuanto tendrás que tener
Para decir, “Ok”?

Porque si lo piensas (oye, piénsalo)
Si tienes suficiente para vivir
Se trata de ser mejor persona
No de tener más, más, y más cosas

Cuando compras cosas
¿Sabías tú que de la Tierra tomas?
Y cuanto más acumulas
Más basura generas

Entonces, si tienes suficiente para vivir
Pero no se te ocurre nada mejor para hacer
Que comprar más cosas
Pues aquí va una idea – ¿Qué tal tratar de ser mejor persona?

Lyrics in English

Shop til you drop
On your marks, get ready, set, go!
You won't stop
If I ask you'll just say, “No!”

You have enough
But still gotta have some more
How many things will it take
Before you say, “Ok”?

Because if you think about it (think about it)
Once you have enough to live
It's about being a better person
Not a bunch more stuff

Accumulating stuff will not make you worth more
You do not need to buy more things to valued
Or loved

When you buy this and that
Did you know that from the Earth you take?
And the more you accumulate
The more waste you generate

Hello?
Hey man, do you want to go to the mall?
Actually, I just realized something...

When I buy this and that
I see that from the Earth I take
And the more I accumulate
The more waste I generate

When we buy this and that
Did you know that from the Earth we take?
And the more we accumulate
The more waste we generate

So when you have enough to live
And can't think of better things to do
Than to buy this and that
How about becoming a better you?
