

EARTH CHARTER

Four basic rules on how to care for the earth

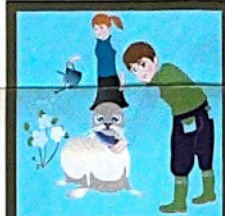

All of us – plants, animals and people – have only one home: the earth. We all need water, earth and air in order to live, so let's keep our earth healthy and beautiful!

1. BE KIND TO EACH OTHER, TO THE ANIMALS AND THE PLANTS

1.

all life on earth deserves respect

take good care of plants and animals

everybody is equally important

remember the generation that comes after you

2. TAKE GOOD CARE OF THE ENVIRONMENT

2.

less air pollution

keep your neighbourhood clean

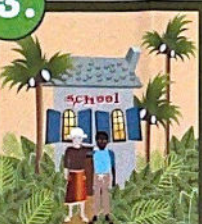

recycle things

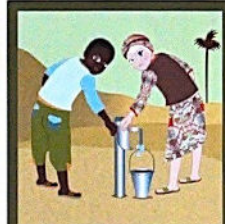

we need to learn how we harm the environment

3.

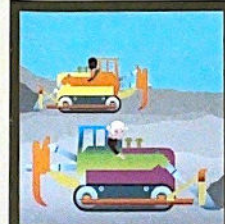

3. WE ARE ALL EQUAL

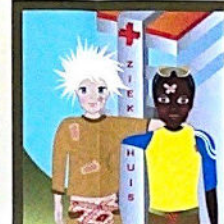

let every child in every country go to school

everyone has a right to clean water

boys and girls deserve equal recognition

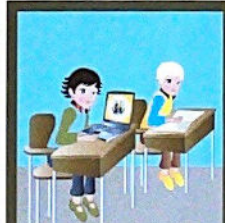

good health care for everyone, rich and poor

4.

4. SAY YES TO PEACE AND NO TO VIOLENCE

say no to violence

learn about sustainability

be considerate of others

peace all over the world

WHY DON'T WE ALL CHANGE ONE BAD THING INTO ONE GOOD THING, EVERY DAY?

HOW ARE YOU HELPING?
