Planetary Consciousness, Ethics of Care and Intergenerational Justice

Earth Charter +25 Event

**Earth
Charter®**
INTERNATIONAL

Earth Charter +25 Event

Nature and Future Generations at the Core

Context/Background

Launched in 2000, the Earth Charter is a call to action, [a declaration of hope](#) that provides a comprehensive and ethical foundation for a healthy coexistence of the Earth community at the dawn of the new century and millennium.

In 2025, it is time to reflect, take stock, and consider the higher purpose of the Earth Charter movement. This gathering will reinforce our commitment, create synergies with other movements, and turn conscience into action for a thriving Earth.

"We must join together to bring forth a sustainable global society founded on respect for nature, universal human rights, economic justice, and a culture of peace. Towards this end, it is imperative that we, the peoples of Earth, declare our responsibility to one another, to the greater community of life, and to future generations."

[The Earth Charter Preamble]

Join us for 3 days of celebration, inspiration and dialogue

Purpose

In a world where war, violence, and division seem ever-present, the Earth Charter +25 event offers a much-needed antidote: [radical hope](#).

The event will highlight the power of transformative action and ethical leadership, uniting diverse voices across generations, areas of knowledge and cultures to address today's crises and build a more just and sustainable future.

This [three-day](#) gathering will bring together global leaders, activists, and visionaries to explore how we can face [unprecedented global challenges](#) and build a future rooted in the Earth Charter's principles.

This event is not just about reflecting on the past 25 years—it is a [call to action](#). It is a call for all generations to come together, break down barriers, and spark a movement of hope that transcends borders, ideologies, and fears.

A key outcome will be the strengthening of intergenerational networks—empowering youth as tomorrow's leaders while honoring the wisdom of elders. This collaborative dynamic will ensure an inclusive and sustainable future.

Our motto over the years has been **“turning conscience into action.”**

“Recognize that the freedom of action of each generation is qualified by the needs of future generations.”

[The Earth Charter, Pillar 1]

Earth Charter+25 Event

Planetary Consciousness, Ethics of Care and Intergenerational Justice

Earth Charter+25 will bring inspiring new insights and actions around the central themes of the event. We will host conversations, exchange of experiences and ideas on how to put these at the core of decision making in our communities, education and businesses.

Over the past two decades, much has evolved with regards to the understanding around the Rights of Nature and Future Generations. This is part of a new narrative that highlights the importance and urgency to address climate change, as well as on new understanding about how the aspiration to achieve inclusion, sustainability and peace are interdependent.

We invite everyone passionate about shaping a just, sustainable and peaceful world to come together with confidence to reinforce our commitment to the Earth Charter vision, find synergies with other similar movements and join forces to turning conscience into action for a thriving Earth.

“We (must) deepen and expand the global dialogue that generated the Earth Charter, for we have much to learn from the ongoing collaborative search for truth and wisdom.”
(The Earth Charter, The Way Forward).

We envision that this event will bring together:

- Youth Leaders and representatives from national and international organizations
- Members of the Earth Charter International Council and Commission
- Affiliated organizations and partners of Earth Charter International
- Business executives, academics, policymakers, activists, and storytellers
